***\*PLEASE MENTION GS Troop 3152 at checkout\****

Ethan, a 9 year old Tustin resident, was diagnosed with Leukemia. During his first year of treatment at **CHOC** hospital in Orange County, he noticed that books and reading were not among the many other great opportunities offered to kids during their hospital stay. His vision is to build a great children's library, corresponding read aloud program & make access to books & reading a core part of the care that kids receive at CHOC Children's hospital.

As part of our **Bronze Award** project, we are honored to make a difference & help our local community by spreading the word & providing new books through ECBC for child patients at **CHOC** hospital in Orange County.
